## UNDP SPECIAL NEWSLETTER

# WOMEN'S POLITICAL PARTICIPATION

## More women in decision making positions: a priority for UNDP

UNDP works in different countries from the region to accelerate progress regarding the presence of women in decision making positions, convinced that this is a key element to strengthen our democracies. Moreover, as a regional level, diverse knowledge products, methodologies, technical assistance and regional projects to support these national processes are developed.

This [special newsletter](#) contains a small sample of the work being done in this field in 9 countries of Latin America and the Caribbean.
