978-1-84564-510-6

eISBN:

978-1-84564-511-3

Pages:

544

Price:

\$468.00

Subject:

Ecology

The book *Ecosystems and Sustainable Development VIII* contains most of the papers presented at the Eighth

International Conference on Ecosystems and Sustainable Development, held in Alicante, Spain, April 13-15, 2011. This biennial conference is the latest in a well established series that covers various aspects of ecosystems and sustainable development, including physical sciences and modelling. The book is dedicated to honor the memory of the late Professor Enzo Tiezzi, who died on 25th June 2010 and was to have been co-chairman of the conference.

The papers contained in the book are organized into sections on Ecosystems modeling, Natural resources management, Environmental indicators, Sustainable development studies, Data Mining applications, Energy and the environment, Soil contamination, Waste management, and Ecotoxicity.

Ecosystems and Sustainable Development VIII is Volume 144 in the **WIT Transactions on Ecology and the Environment**. Abstracts and Open Access papers (free) and full text (\$30 per paper) of individual papers in the book are available through the electronic edition of the Transactions in the E-library section of our website.

Audience:

Researchers in academia, industry, and government; government policy-makers.
