Growing Cities that Work for All: A Capability-Based Approach to Regional Economic Competitiveness

The United States has posted more than 100 consecutive months of net job gains since the economic recovery began in 2010, making this the longest expansion in seven decades. Yet, for many, wage growth has lagged, leaving many families economically insecure. Meanwhile, job and economic growth continue to accrue in select corners of the nation, leading to disparate economic and social outcomes across the country. This uneven progress reflects, in part, a nation grappling with an accelerating pace of change. Powerful new technologies have enhanced people's and firms' ability to achieve unprecedented productivity and have made the

global economy more interconnected than ever. At the same time, these forces are making some skills and knowledge obsolete...[read more](#)
