CAF-development bank of Latin America cordially invites you to **“Social Inclusion in Latin America- Public Policies and Urban Intervention Best Practices”**, a unique opportunity to engage in a discussion with four distinguished Latin American mayors on public policies and practical urban interventions that have contributed to an increase in social inclusion.

As Latin America is one of the few regions in the world where social inclusion has increased over the past decade, the knowledge that these leaders have accumulated is a valuable experience from which other cities could benefit. We look forward to welcoming you in a rich discussion of proven best practices that could foster a multi-sectorial and regional dialogue to improve the life of urban citizens around the globe.

The New School

Wollman Hall, Room B500

Eugene Lang Building, 65 West 11th Street, New York

June 10th, 2015. 6 to 8 pm.

Reception to follow.
