

Apply now: Green Talents Award 2018

The German Federal Ministry of Education and Research (BMBF) hosts the prestigious "Green Talents – International Forum for High Potentials in Sustainable Development" to promote the international exchange of innovative green ideas.

The "Green Talents – International Forum for High Potentials in Sustainable Development" was launched in 2009 by the German Federal Ministry of Education and Research and honours 25 young researchers each year. "Long-lasting contacts between up-and-coming talent and established experts have an important role to play here. This is why the Green Talents competition aims to build up an extensive, interdisciplinary network of experts from science and industry to work together on the key objectives of shaping the future, transforming global challenges into opportunities, and creating liveable and decent conditions for all" explains Minister and patron of the award Anja Karliczek.

Who can apply?

Applicants for the Green Talents Award need to fulfill the following requirements:

- enrolment in a Master's or PhD programme in any field related to sustainable development or a degree (Master's/PhD) completed with significantly above-average grades in a similar programme no more than three years before the end of the application process
- excellent proven command of English
- a non-German citizen or anyone not residing in Germany

Application period: 9 April - 23 May 2018

More information on the programme and the application is available on the [website of the Green Talents Award](#)
