

Join online the plenary sessions of the 54th ISOCARP World Planning Congress in Bodø, Norway from 1-5 October 2018

The congress theme is "[Cool Planning: Changing Climate and Our Urban Future](#)", and we will discuss the burning issues of climate change, resilience, disaster mitigation, planning, adaptation and more with regard to urban planning, design, technology, infrastructure and many more. We expect a large turnout of experts on the theme, with workshops, keynote speeches and also the usual ISOCARP programme, including two Young Professional Planners workshops. There will be many opportunities for networking as well.

This year's **keynote speakers** are **Jeremy Rifkin**, **Peter Newman** and **Herbert Girardet**. This is a unique opportunity to listen to world class speakers, as also to the winners of ISOCARP Awards of Excellence and the summaries of the Young Planning Professionals' workshops. Please have a look at the [congress brochure](#). Papers and presentations are available [online](#).

If you cannot join us in Bodø - take advantage of this one-off opportunity to listen to the live stream of the plenary sessions!

We will send you information about the stream a day before the session. Stay tuned!

The streamed sessions will be:
