Dear all,

I'm currently recruiting two PhD candidates and a postdoctoral researcher for a research project on the dynamics of collective organization in rapidly growing cities. More specifically, I'm looking for:

- A <u>postdoctoral researcher</u> who'll use macroscopic methods (including GIS) to study patterns of urbanization in comparative and historical perspective.
- A <u>PhD candidate</u> who'll use qualitative methods to study the dynamics of collective organization in Istanbul
- A <u>PhD candidate</u> who'll use qualitative methods to study the dynamics of collective organization in Accra

I'd be grateful if you could pass on the advertisements to people in your network who might be interested.

Kind regards,

Justus
