

The Urban and Regional Planning Program at the University of Michigan is seeking a junior faculty hire in urban data analysis and technology-based planning, either as a tenure-track assistant professor or as an assistant professor of practice. More details on the position announcement and application process are available here: <https://apply.interfolio.com/69974>

There will be an informational meeting for this position on Thursday morning, October 24, at the ACSP conference. Please check the final ACSP conference schedule for time and location.

Finally, Rob Goodspeed and I will both be at the conference, both serving on the committee for this search. Please look for us at the conference, and please feel free to contact either of us via email, if you have questions about this position. I can be reached at [rkno...@umich.edu](mailto:rkno...@umich.edu), and Rob can be reached at [rgoo...@umich.edu](mailto:rgoo...@umich.edu).

Regards,  
Dick Norton
