

See what your colleagues are reading in *Sociology of Health & Illness*

We are pleased to send you details of the following key articles published in *Sociology of Health & Illness*, which are now available online without any charge.

Sociology of Health and Illness is an international journal which publishes sociological articles on all aspects of health, illness, medicine and health care. We welcome empirical and theoretical contributions in this field in the form of original research reports or review articles. In addition to the six regular issues published each year, subscribers receive a further special issue. These themed issues aim to identify and contribute to new areas of debate and research in the discipline and each issue is devoted to an important topic of current interest.

[Health-related stigma](#)

Graham Scambler

[Food and eating as a social practice – understanding eating patterns as social phenomena and implications for public health](#)

Treena Delormier, Katherine L. Frohlich & Louise Potvin
